

# Meet the Teacher

I'm Mrs. Huber and I love to help kids grown and learn in fun hands on ways. I have been teaching for 21 years in first through fifth grade with the last 10 specializing in math. I am originally from the panhandle of Texas but moved for the trees and Lindale's great schools! My husband is a teacher also and we love to share great teaching strategies. I have two children, Kye and Ellie. Kye is in 11th grade and loves playing in band and Ellie is in the 8th grade and loves twirling and arts and crafts. I can't wait to get to help you grow with you this coming year!

## Favorites

I love all things nature, especially National Parks! I also love to cook, mexican food, and crafting. My favorite drink is a raspberry tea or strawberry water.
